

COTTON HAS ADVANCE BUT DROPS LATER

New Canaan, La., Oct. 2.—An irregular market developed in cotton in the early trading today, weekend short covering furnishing a fairly good demand, especially in the more distant months, but conflicting with the influence of the new buying was fresh selling due to the favorable weather map, which showed a possibility of dry, though rather cold, weather for the week ahead. In the first hour of business the active months at their highest were unchanged to 22 points up compared with yesterday's close.

WELCOME TO THE INTERNATIONAL EXPOSITION

DO YOU KNOW that one of the important details of our business is supplying merchants, manufacturers, accountants, professional men and others in El Paso and vicinity who use them, with

Blank Books
